

Financial Tear Sheet

Company Overview

Founded in the USA in 2006, SPI Energy is a global provider of photovoltaic (PV) solutions for business, residential, government and utility customers and investors. SPI Energy operates across the entire PV value chain, including the development, financing, installation, management and sale of utility-scale and residential solar power projects in China, Japan, Europe and North America. It also operates a first-of-its-kind online energy e-commerce and investment platform, Solarbao.com, which enables individual and institutional investors to purchase PV-based investments; as well as Solartao.com, a B2B e-commerce platform offering a range of solar energy products for suppliers and customers.

Launched in January 2015, Solarbao.com (www.solarbao.com) is a fast growing platform that aggregates financing from individuals and enterprises wanting to invest in solar energy projects. It has already provided Chinese investors with access to more than 100 green energy projects and financing products, bringing new financing solutions to China's ambitious target of 100 gigawatts of solar PV installations by 2020 as outlined by China's National Energy Administration. Through Solarbao.com, SPI Energy is creating a closed-loop solar energy ecosystem from power generation and power storage to power efficiency management and helping to resolve environmental and air quality issues in China.

SPI Energy has its operating headquarters in Shanghai and maintains global operations in Asia, Europe, North America and Australia. It has more than 1,000 employees globally. For more information, please visit www.spisolar.com, www.solarbao.com or www.solartao.com
